

iJES is an interdisciplinary journal focusing to publish and discuss fundamentals, applications and experiences in the field of Engineering, Science and Information Technology. We will give authors the possibility to immediately publish their working results and to make it public for a broad audience. iJES articles are indexed in the Directory of Open Access Journals, Computer Science Bibliography, Microsoft Academic Search, and other indexes. Please note that iJES no longer charges a publication fee for authors.

Features of iJES

- Open access. Authors and Readers don't have to pay any fees at the moment.
- Fastest reviewing (<4 weeks) and publishing process.
- Publication Certificate (On Demand) will be provided to all authors of the paper.
- Upon successfully paper publication with iJES, there is opportunity to be part of the Editorial Board.
- The publication frequency of the iJES journal is quarterly.

Types of Papers

iJES invites all research, review articles, short communications & technical notes that describe significant advances in research in the areas of Engineering, Technology, Science, IT & more....

We categorize the submissions as follows.

Full Papers: 12 - 16 pages

Short Papers: 8 pages (max)

Reports Application Notes: 16 pages (max)

Full submission guidelines can be found at <https://online-journals.org/index.php/i-jes/> under **About/Author Guidelines**.
